## Strid - Full Edition Download Crack With Full Game

Download ->>> <http://bit.ly/2JVho7f>

### About This Content

- + Strid account, rank and unlocks.

This DLC enables the full version of Strid. It will add the ability to create and use a Strid account to gain rank and unlock new weapons.

#### Kits

Each standard kit is available to everyone from the start. But every kit has an unlockable alternative that can be made available if playing with a Strid account with this full version DLC. When playing on an account, points from any game is saved and will be used as progress for new unlocks. At certain intervals of points, new unlocks become available and it is up to the player to select which kit alternative to unlock.

Below each kit is displayed their unlockable alternative kit.

Assault class

Automatic rifle, under-barrel grenade launcher for explosive rounds and smoke, flash-bang (briefly blinds anyone near explosion), sandbags (constructs sand terrain at dropped position).

Unlocked alternative uses a higher damage rifle with less ammo and more recoil, has under-barrel shotgun and smoke, a disposable light anti-armor rocket replaces sandbags.

Ranger class

Deployable sniper rifle, sub-machine-gun, hand grenade, laser target designator (bombs can be requested at lazed position by officer radio).

Unlocked alternative uses a lower damage rifle with higher rate of fire, also has fully-automatic mode when not deployed.

Machine-gunner class

Deployable machine gun, pistol, shovel (efficiently destroys sand terrain), flare gun (efficiently burns through sand terrain).

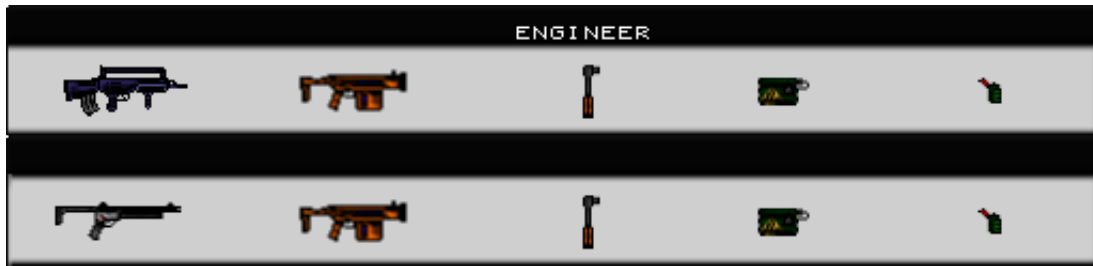

Unlocked alternative uses a lower damage machine gun with longer view-distance, also replaces pistol with a sub-machine-gun.

Medic class

Burst fire-mode rifle, fully automatic pistol, medical kit (heals target player), smoke grenade (deploys smoke barrier on explosion), syringe (increases max HP for target player).

Unlocked alternative uses a lower damage rifle with a higher rate of fire.

Engineer class

Burst fire-mode rifle, sand gun (constructs terrain at target location), welder (repairs target vehicle), plastic explosive (explodes when detonated), remote (triggers placed explosives).

Unlocked alternative uses a lower damage automatic shotgun with a higher rate of fire.

Officer class

Shotgun, riot-shield (blocks small-arms fire, has limited HP), extra ammunition (re-supplies target player ammo), scope (enables very long view-distance, thermal imaging and can place target lasers), radio (can call in airstrikes on friendly lazed targets).

Unlocked alternative uses an automatic rifle.

Anti-armor class

Grenade launcher with high explosive and armor piercing shells, revolver, disposable anti-tank missile, disposable anti-air missile.

Unlocked alternative uses an automatic sniper rifle with armor-piercing rounds, a lower damage pistol, and anti-air missile is replaced by a light anti-tank missile.
